PRESIDENT MESSAGE

I am humbled, honored and privileged to assume the role of President of Pakistan Association of Greater Houston. I am grateful to my predecessors for their leadership and outstanding contribution to PAGH during their presidency, and the current Executive Committee for their unfettered desire to help and serve Pakistani community of Greater Houston.

During my tenure and with the active collaboration of the Executive Committee, I will work to continue some of the already established efforts and create additional initiatives to address the issues of elders, domestic violence, social and economic disparity, alleviation of poverty, job growth, women leadership, and immigrant families. My top priorities include bringing complete transparency to the association and increasing membership.

During the next two years, I plan to revitalize Pakistan Center and will work to relocate the building to a newer location convenient to all community members. My vision is to have a debt free building with 4-6 classroom for vocational training, offices, indoor and outdoor play area, and a multipurpose hall for small to medium size community events. It will mark the beginning of a new era for PAGH.

I am requesting all the community members to step forward and help with this dream which belongs to all of us and our generations to come. May Allah bless us all.

Haroon Shaikh

President
